About the project

Mortlake South Wind Farm is ACCIONA Energía's fifth wind farm generating renewable energy in Australia. Located 5km out of Mortlake, the farm is home to 35 wind turbines capable of producing 157.5MW of electricity.

Leaders in renewable energy

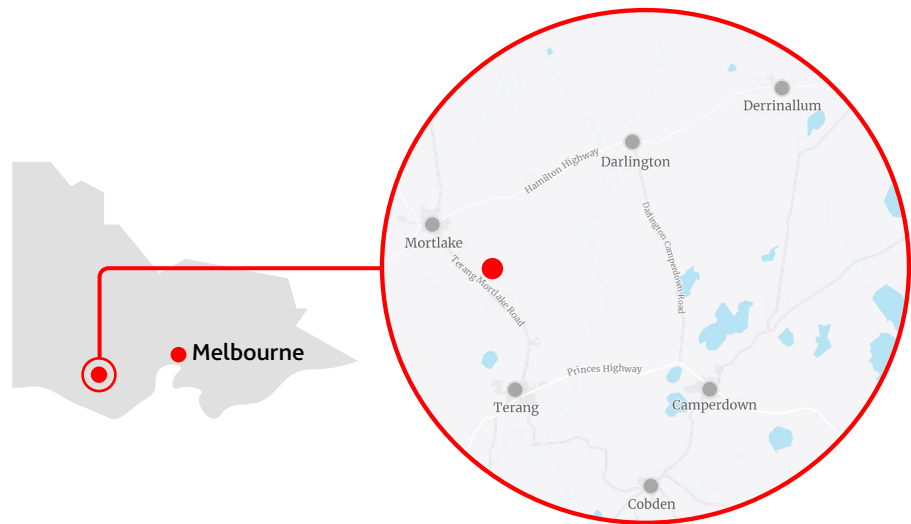

ACCIONA Energía, the world's largest renewable energy company without a fossil fuel legacy, develops, builds, owns and operates renewable energy assets in Australia. We collaborate with communities to produce sustainable energy, create jobs, and contribute to establishing Australia's low-carbon economy.

Connection to Country

In the spirit of reconciliation, ACCIONA Energía acknowledges the Traditional Custodians of Country throughout Australia and their connections to land, sea and community. We pay our respects to their Elders past and present and extend those respects to all Aboriginal and Torres Strait Islander people.

Location

Mortlake South Wind Farm is located 5km south of Mortlake and about 7km north-west of Terang in south-west Victoria. It is constructed on cleared, level land which is mainly dairy farming country.

Community benefits

JOBS & LOCAL ECONOMY

The wind farm offers up to 10 permanent full-time roles and seasonal contract work. ACCIONA Energía supports local businesses by buying regional goods and services, while host landowners gain diversified income streams.

NEIGHBOURHOOD BENEFIT PROGRAM

This is a benefit available to people who live, own or rent in a dwelling located within 4km of a wind turbine. The payments are made as pre-loaded gift cards which can be used to purchase goods and services at participating local businesses, within Mortlake, Noorat and Terang. The program encourages the community to shop locally, keeping spending within the local economy.
