

Wallaby Creek Wind Farm

LOCATION

Near Narromine, NSW

CAPACITY

217-259MW

STRUCTURE

Up to **38** turbines plus
Battery Storage System (BESS)

JOBS

Up to **220** construction jobs
5 permanent full-time roles

INVESTMENT

\$1.18 billion

ANTICIPATED CONSTRUCTION COMMENCEMENT

2027

About the project

Wallaby Creek Wind Farm is a proposed renewable energy project with generating capacity of between 217MW and 259MW. The proposed project, located on around 8,800 hectares of land in Narromine Shire, will consist of up to 38 wind turbines, battery storage and associated infrastructure. The project is proposed to connect to Essential Energy's 132kV Narromine South Switching Station, located approximately 10km north of the project.

Leaders in renewable energy

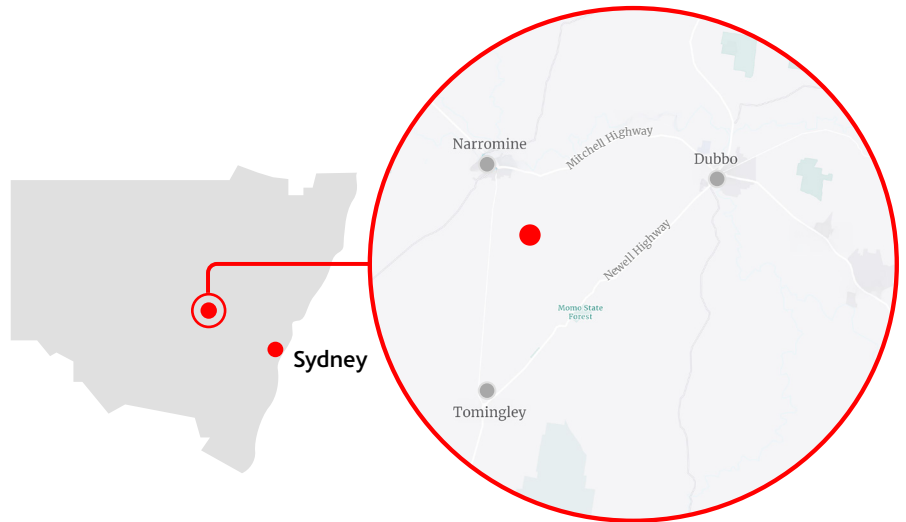

ACCIONA Energía, the world's largest renewable energy company without a fossil fuel legacy, develops, builds, owns and operates renewable energy assets in Australia. We collaborate with communities to produce sustainable energy, create jobs, and contribute to establishing Australia's low-carbon economy.

Connection to Country

In the spirit of reconciliation, ACCIONA Energía acknowledges the Traditional Custodians of Country throughout Australia and their connections to land, sea and community. We pay our respects to their Elders past and present and extend those respects to all Aboriginal and Torres Strait Islander people.

Location

The project is located northwest of the Newell Highway approximately 3.5km southwest of the town centre of Narromine at its closest point and 15km north of the township of Tomingley, within the Orana region of NSW. The site is located on both sides of Tantitha and Pinedene Roads, in Narromine Shire.

Community benefits

JOBS AND LOCAL ECONOMY

We will create up to 220 construction jobs and 5 operational jobs on this project, as well as offering pathways to gain experience working on a major project. In the operations phase, we'll need a team of people to maintain and operate the project over its multi-decade

PROCUREMENT AND SUPPLIER OPPORTUNITIES

ACCIONA Energía commits to source as much work and supply as possible from local businesses, ensuring that growth and development opportunities benefit local communities first. From earthworks to catering, we want to work with local people to supply our projects.

DEDICATED COMMUNITY BENEFIT-SHARING PROGRAM

We will establish a community benefit-sharing program which will support community organisations and others to deliver programs for the wider community. These investments will be developed and tailored to benefit local residents, delivering meaningful, long-term outcomes that offer a genuine legacy of investment for the local area.

SCHOLARSHIP PROGRAM

A scholarship program will be open to local students to provide support to further their education at university or TAFE. This program will run throughout the life of the project.

Anticipated timeline

The proposed Wallaby Creek Wind Farm is considered a State Significant Development under the NSW Environmental Planning and Assessment Act 1979. ACCIONA Energía lodged a Scoping Report and received Secretary's Environmental Assessment Requirements (SEARs) from the NSW Government in August 2023. It is expected that the Environmental Impact Statement (EIS) will be lodged in early 2026 with construction to commence in 2027, pending approval timeframes.
